Drive Safe 4 Life

WALKIE STACKER ACCREDITATION COURSE

SMCS Risk's Walkie Stacker Operators Course (WSOC) is designed to provide participants with the skills and knowledge to undertake activities related to mobile equipment operation in a safe and secure manner. Our fully accredited and qualified Instructors conduct the course in Khmer or English and is an intensive half day course aligned with Australian standards.

The WSOC gives operator's the skills and knowledge to safely operate a Walkie Stacker whilst preventing injury and damge to property, especially product loss,

Each course is conducted at the participants' workplace to give the student real world operational experience, and consists of theoretical, practical, and assessment modules. Where a theory classroom is unavailable, classes are conducted in SMCS Risk's training facility.

All participants who successfully complete the WSOC will receive a certificate, as well as an official Accreditation Card.

Modules of the WSOC

- Hazard and Indentification & Control Measures
- Inspection of Walkie Stacker and associated Equipment
- Inspect load for security and stability
- Post Start Inspections of Machine
- Load movement Procedures including Repacking of Goods
